

PROMINENT SPEAKER WILL AID POOL

Word has been received from the Joint Organization Committee of the Dairy, Livestock and Poultry Pools that W. J. Park, president and managing director of the Fraser Valley Milk Producers Association, will come to Alberta for one week to assist the pool in their drive for membership which starts June 1st. It is expected that Mr. Park will be here for the first week of the drive. Mr. Park has had much to do with the success in co-operative marketing of dairy products by the Fraser Valley Association. The farmers in this pool have been getting from three to four cents more for their butterfat than the Alberta farmers, and generally speaking have been able to obtain about 70 per cent. of the price the consumer pays for their product, as compared with about 50 per cent. which the Alberta producers get. Mr. Park will be able to give some very interesting information about co-operative marketing to the Alberta farmers.

Boards of Trade Give Redirection

Redirection of the pool has been heavily given by a dozen or more of the boards of trade throughout the province, including the Action Board of Trade, the Edmonton Board of Trade, and the Calgary Board of Trade. The boards have included June 1st as a day for a special meeting at which speakers for each of the three pools will be present.

Support in the pools in their membership drive is considerable in the province and the outlook for obtaining the objectives, among the clubs is very encouraging.

Plans for the drive

Directors of the three pools will meet in Edmonton Wednesday night to compare plans for the membership drive. Each of the several divisions of the province represented by a director in each pool, will be divided into districts, and a director placed in charge of each district which will be thoroughly organized, with assistants in charge of canvassers, at which there are no more than about 50 registered in the province. The directors in charge of each district will give the canvassers a week before the drive starts, appointing registered men arriving for the haul for meetings. Many then on the 50 meetings to be held have already been arranged for, and the advertising of these meetings will commence shortly. Anti stickers are also being used to advertise the dates of the drive. The joint canvassing committee is now making its headquarters in Edmonton until the completion of the drive on June 1st.

What Pool Contracts

Canvassers for the three pools will also carry with them contract forms for the Wheat Pool which has been in operation now for 25 years. It is possible that many farmers who have not already signed up with the Wheat Pool may wish to do so, and this will give them the opportunity.

Encourages Co-operative Marketing

There is no fear in co-operative marketing in the United States that believers in actively encouraging co-operative marketing among the farmers. This is the Stars-Robcock Co-operative, which is an agricultural foundation for the benefit of the farming community. In a letter to Mrs. E. W. Wyman, of the Alberta Poultry Pool, Mr. Wyman, formerly, formerly, a prominent member of the U. F. A., and now an official of the Stars-Robcock agricultural foundation, tells what that organization is doing to encourage the farmers to go in for co-operative marketing. Mrs. Punks states that her organization in the States is in its infancy, and that the foundation for which the work is earnestly endeavoring to encourage co-operative organization and improve economic conditions among the farmers.

ARROWOOD AND DISTRICT NEWS

A dance was held in the Arrowood school, on Friday night, May 15. A two-piece orchestra from Knapp, assisted by B. B. Reid and Allen Phillips of Arrowood, furnished the music. The Buffalo Hills U. F. W. A. several lunch and soft drinks. The promoters of the dance donated a money amount to the U. F. W. A. In spite of the many events in neighboring districts there was a large crowd.

A party consisting of the E.D. Bous, R. McCampbell, J. TWILSON, and R. R. McBride's went on a fishing trip to Lake Newell over last week end. The fish story still remains to be told.

The Arrowood Tennis Club are competing their two double tennis courts, which are of first-class class. The slope are of wire mesh and twelve feet high. Much amateur co-operation and good will has already been shown by the members, and Mr. Mills was shown his usual spirit of good will toward progressive enterprise. A tennis tournament and two foot races were on for full day. Mr. J. Byrge has sent his team. R. B. Reid and R. M. Reid of the local citizens have had the engineering work. The officers elected at a special meeting are as follows: Pres. S. B. Reid, Vice-Pres. R. L. Culp, Sec. Treas. R. B. Saunders, and J. Byrge. The club has been in past several private courts at the homes of individuals, and the present season in the game together with fine courts now about complete would seem to warrant the undertaking a worth while enterprise.

The Arrowood four-piece orchestra, are kindly considered to furnish music for the dances at the Consolidated school, Friday evening, May 29th.

Quite a number of local young people were seen on Monday evening, near the Bow River a week ago Sunday. The U. F. W. society of the local district are going on mass Friday the 29th, in the evening to hold a well-organized mass meeting.

Work of balling the new railroad

is now progressing very rapidly, and at this writing the railway is expected to be completed in about 100 days or less. The new line will have an average of one mile per hour, and will be completed in about 100 days or less.

Mr. Wolf is busy drilling wells these days and he is now on the townsite for Mr. Will Ward at present.

Mr. Lytle of the Consolidated school has decided that he is in the new class and will be moving to the new school at the end of the month. He is investigating the Allen cases to hold possession.

The work man was for the determined man.

The Buffalo Hill local of the U. F. A. met with Mrs. W. S. A. Hill, a prominent member of the U. F. A., and now an official of the Stars-Robcock agricultural foundation, tells what that organization is doing to encourage the farmers to go in for co-operative marketing. Mrs. Punks states that her organization in the States is in its infancy, and that the foundation for which the work is earnestly endeavoring to encourage co-operative organization and improve economic conditions among the farmers.

Miss Rita Wille of Calgary visited her mother, Mrs. George Wille, on the week end.

EMPIRE DAY SPORTS GREAT SUCCESS

The elements and everything else combined happily to make the Gleichen celebration of Empire Day the best ever seen.

The million dollar rains of last week put everyone in the best of spirits and the wind Sunday left the roads in fine shape for motoring which enabled visitors to come from every point of the compass, for a distance of 50 miles and more. The entire day was cool, dainties—just one of Alberta's best days.

The entire day program went off almost to the tick of the clock, the various committees working in union and harmony from the start of the parade until the band playing the national anthem, continuing after that with one of the biggest dances still not far from dawn next morning.

The entire program was carried off without a hitch and to the satisfaction of fully 1000 spectators, and best of all will leave a balance of about \$800 to be used for future meetings on the fair grounds.

The limited time and space at the school only permitted us to give the list of prize-winners, which all are anxious to see.

Prizes: 1st L. Michael, 2nd Purdy J. J. 3rd L. Michael, 4th Purdy J. J. 5th L. Michael, 6th Purdy J. J. 7th L. Michael, 8th Purdy J. J. 9th L. Michael, 10th Purdy J. J. 11th L. Michael, 12th Purdy J. J. 13th L. Michael, 14th Purdy J. J. 15th L. Michael, 16th Purdy J. J. 17th L. Michael, 18th Purdy J. J. 19th L. Michael, 20th Purdy J. J. 21st L. Michael, 22nd Purdy J. J. 23rd L. Order from your grocer his best tea and he'll usually send "Red Rose."

RED ROSE

TEA "is good tea"

The same good tea for 30 years. Try it!

The Value Of Good Roads

It has been said, and unquestionably truthfully said, that the world has made greater material progress in the last one hundred years than in the preceding one thousand years. The last half of the nineteenth century and the first quarter of the present century have worked a veritable revolution in the lives of people in all civilized countries as a result of the marvellous discoveries and inventions which have marked this period. Advancements made in methods of transportation, in means of communication, in the science of medicine, in systems of education, in forms of entertainments are so manifold and far-reaching that lengthy articles of a most interesting character could be written with reference to each of them.

Each new discovery and invention now has an almost immediate effect in relegating the product of a preceding discovery to the scrapheap. In former times it took a long time for a new discovery to find ready acceptance by the people as a whole, and more often than not the inventor was a man without honor or recognition by his own generation. In this age, however, new discoveries and inventions are accepted and adopted with unprecedented rapidity, regardless of the effect their adoption may have upon existing customs and organizations, and despite the fact that their adoption means "scraping" millions of dollars worth of articles and equipment now in use.

It is only necessary to point to the almost universal adoption of the automobile in the short space of two decades, and the even more amazing development of radio since the close of the Great War. The effect of one new industry on an older one is shown in the almost complete abandonment of the manufacture of carriages and buggies since the automobile came to the fore, while the popularity of radio has played havoc with the manufacture and sale of phonographs and by bringing lectures, concerts and entertainment of various kinds right into the home, is having a direct effect on attendance at and the financial success of popular forms of entertainment, albeit it has had the effect of enormously widening the circle of people who can enjoy these things.

The automobile is rapidly forcing another development which is having, and is bound to have, an ever increasing influence in our modern life. This is the construction of good permanent roads. No longer is a community willing to put up with poor, ungraded highways. The automobile has taught people that a poor road is a far greater expense than is the cost of a good one. Today bad roads are the accepted sign of an unprogressive, backward community.

The creation of a comprehensive system of good roads, while not in itself spectacular, has a profound influence on the life of any province or country. Combined with the ease of transportation which the automobile provides, such roads encourage travel within one's own country, thus extending knowledge and exerting a broadening influence leading to a removal of insular prejudices. Such roads are a big factor in reducing the cost of moving the products of the farm to market centres, whether moved by horse drawn or motor driven vehicle.

The development of good roads in Canada is not only enabling Canadians to become better acquainted with their own country, but such development is year by year attracting an ever increasing number of tourists from the United States. The number of touring parties in 1924 was fifty per cent. greater than during the preceding year, and it is conservatively estimated that these United States tourists expended no less than one hundred million dollars while in the Dominion, a sum which certainly yields a handsome return on the money invested in these roads.

Canada, with its wonderful scenic attractions, its bracing northern air and fine summer weather will more and more prove an attraction to the people of the United States in their desire to enjoy a real holiday away from the heat and congestion of their large cities. The automobile makes it possible for whole families and tourist groups to come at less expense than is involved for a number of people in railway transportation, and they can enjoy liberty of movement which is not possible by rail.

All that is necessary to enormously increase this tourist traffic is better roads and more of them. The initial cost of such highways is high, but that they are paying investments, not only in reduced costs of haulage for our own people, but through the expenditures made by tourists, is being demonstrated wherever such good road systems have been created.

Dislikes "The Red Flag"

Ramsay Macdonald Would Substitute Something More Soul Stirring

Ramsay Macdonald dislikes "The Red Flag" as a Labor song and he is desirous that something more tuneful and soul-stirring take its place. Presiding at a Labor gathering at Newport, Wales, he said the Socialist song was not good enough, and appealed for a great Labor song which was not a ditty. He wanted fine, pulse-stirring music, which was not required to have sentiments to apologize for it but which justified itself to the heart and soul.

Predicts Big "Sea Change"

English Shipbuilding Firm Claims Motorships Will Replace Steamers

A big "sea change"—steamships to motorships—is predicted in the annual report of Harland and Wolff, the big English shipbuilding firm. The company, which has 13 motorships under construction, including three liners of over 20,000 tons, reports, that judging from present indications, "the motorship will supersede the steamship in much the same way as in the course of the last century the steamship superseded the sailing ship."

B.C. Lumber Shipments

Lumber exports from British Columbia during the month of March aggregated 28,177,000 board feet, more than half going to the Orient and the balance divided between the Atlantic seaboard, United Kingdom and continent, Egypt and the Antipodes. So far this year the port has moved over 70,000,000 board feet.

Even the man who denounces capital as a curse never objects if the curse comes home to roost.

W. N. U. 1577

Centre of the World

Sir Robert Falconer, President of Toronto University, Speaks to Londoners on Canada's Destiny

"Americans and Canadians understand each other," declared Sir Robert Falconer, president of Toronto University, who was guest of honor at a Pilgrims' luncheon in London. "The United States' attitude has changed towards Canada; the Americans now recognize Canadians as a people with their own destiny as a great nation. One does not hear any talk of annexation in the United States, and the only occasion for annexation talk is in Canada, expressed by business men."

"My presence as a speaker at the Pilgrims' luncheon denotes Britain's changed attitude towards Canada. Canadians were once regarded by Britain as irritators rather than comforters, especially because of the numerous fisheries, trade and boundary disputes. Not long ago there were days of embitterment in Canada, but they have now passed."

"Canada is a centre of the world—not today's world, but the world that is sure to come. It is the great northern place of the North American continent. Its easternmost shores are nearer England than New York, while Vancouver and Victoria face the huge Pacific, which is bound to play an important role in the future. Other nations may take umbrage at the ideals and programme of the English-speaking nations. I have heard Orientals say they dread this menace of advance towards materialism. But the strengthening relations between Britain, Canada and the United States means a great step along the road to world peace."

Ambassador Houghton attended the luncheon.

Canadian Exhibit

Surpasses Last Year

Pavilion at Wembley Will be Much More Representative

Canada has surpassed herself this year at Wembley. The great Empire Exhibition contains a far more representative pavilion as Canada's exhibit than was to be seen last year.

Sixty per cent. of this year's exhibitors did not show last year, while Canadian products which were not on exhibition last year, will awaken a new interest among the hundreds of thousands of sightseers who will come this year.

Farming machinery will dominate this exhibit, but by a happy chance Canada's products of artificial silk and manufactured tobacco will be shown to the British public for the first time. One of the leading features of the exhibition will be the panorama which is being exhibited by the Canadian National Railways.

It is two hundred feet long, and a moving train will travel the entire length of the pavilion, showing Canadian life, customs and products, from the Atlantic to the Pacific.

It takes just seven minutes to go from Quebec to Vancouver on this train, and the illusion of travelling through Canada is produced by a train in the foreground moving in the opposite direction. The Canadian pavilion is improved out of all knowledge, Major Talmie said, and will give visitors a far better idea of the real Canada.

Radio Sets For Arctic

Seaplanes of Macmillan Expedition Are Well Equipped

Two different radio sets designed to cover all possible contingencies will be used by the seaplanes of the Macmillan Arctic expedition this summer.

One of the planes will carry a standard navy aircraft spark set and the other a short wave radio set, with which remarkable long distance results already have been attained.

The Thetis, base ship of the expedition, will be equipped with two five kilowatt transmitting sets. Through this combination the expedition expects to be able to keep in touch directly with points in Canada and the United States.

Huge Industry In Sweden

Average Output of Match Factory Is 30,000 Per Second

A match a day for every man, woman and child in the world is now being turned out by the factories owned or controlled by the Swedish Match Corporation according to a report.

The average output now amounts to 20,000 matches a second, or 10,000,000,000 boxes a year. If placed in a single pile the match boxes made in eight months would reach from the earth to the moon, it is alleged.

Practically all the raw materials used for match making in Sweden have to be imported; the aspen wood comes chiefly from Russia.

What a sensible woman doesn't know never troubles her, but it causes her inquisitive neighbors hours of untold agony.

"DIAMOND DYE" IT

A BEAUTIFUL COLOR

Perfect home dyeing and tinting guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or that lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Buy "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

Holy Land Attracts

Foreign Tourists

Stores and Hotels in Palestine Reaping Considerable Profit

That Palestine is becoming increasingly attractive to the tourist, now that normal travel facilities and hotel accommodations are available, is shown by an official report for the last five months, during which 22,381 travellers came to the country.

Many of the tourists spent over two months in Palestine, retailers, hotelkeepers and souvenir dealers, reaping considerable profit from them.

Nearly everybody in Jerusalem and other Palestinian towns is preparing for the winter season which promises a greater inpouring of tourists to the Holy Land than during any pre-war winter. The Jewish Information Bureau announces advices from Europe and America are that more than 5,000 Jews expect to spend the coming Passover there.

Synthetic Food

Time May Come When Food Will Be Produced By Laboratory Methods

A new era in the history of mankind, when human beings will subsist entirely on food produced synthetically, is forecast by U.S. Secretary of Commerce Herbert Hoover, following a successful experiment by chemicals in which sugar was made by passing light rays through formaldehyde.

If sugar can be made synthetically then starch and numerous other foods probably can be produced through the same chemical process, Hoover declared. He described the sugar producing experiment as the greatest chemical discovery of the last fifty years, because of the new fields which it opens up and of the possibilities which it holds.

Scientists see the time coming, when through the increase of population, it will be necessary for man to get at least a part of his food through such laboratory production.

Sells Large Estate

Several portions of his large estates in East Sussex have been sold by the Duke of Devonshire. He is selling the historic Benedictine Priory at Wilmington, which was founded in the reign of King Rufus. Taxation has made the holding of vast estates quite impossible for Englishmen of even the greatest wealth.—Ottawa Journal.

Useful in Camp.—Explorers, survivors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

A British scientist estimates that 120,000,000 fish live in every square mile of the ocean.

British Policy In Palestine

Protecting the Rights of the Arabs as Well as the Jews

British policy in Palestine has been made perfectly clear, alike to the Arabs, to the Jews and to the British public. We are going on steadily with the experiment of the "National Home for the Jews"; we are going at the same time to protect the rights and interests of the Arabs. That the Zionists know, and it is only wanton mischief-making to repeat the old charge, as the Morning Post continues to do, that the Jews' aim is to drive the Arabs out of the country. There are a few Zionist maniacs who want Palestine to be a hundred per cent. Hebrew, but they count for about as much there as do the handful of Communists here who want England to be a hundred per cent. Bolshevik. To the vast majority of sensible Jews the "National Home" means the opportunity of developing their own culture side by side with that of the Arabs. The Arabs have nothing to lose by this any more than by the economic developments that the Jews are introducing. The two races in honest co-operation can make a flourishing Palestinian nation, and the prime object of Great Britain, as the mandatory power, is to encourage and assist them to do that.—New Statesman.

Legislation and Labor

Cannot Lean Too Much On Legislation For Support

Much time is wasted by a large number of people in this and other countries in efforts to get by means of special statutes things which have not as yet come by any process other than that of toll. Politicians say a great deal about the necessity of this or that measure and lay great stress upon the importance to the individual of some particular law, but if any man will sit down and try to think of some particular statute that has served to lighten the burden of his toil or increase his income, he will discover that he cannot recall any such measure. After a government has made provision to protect its citizens in their lives, persons and possessions, it cannot, except in a very general way, do much more for them.—New York Commercial.

Early Surgery Only Cure For Cancer

New York Doctor Has No Faith In Advertised Cures

"I am not interested in quacks and advertised cancer cures," said Dr. Frank L. Hoffman, of New York City, who addressed the Medical Health Officers' Association, Toronto, on "Cancer Problems in Canada."

The Dr. Glover treatment was mentioned, but Dr. Hoffman said he paid no attention to it.

"You cannot make too emphatic," declared Dr. Hoffman, "that there are more cures from early surgery, and the combined employment of radium and surgery, than from any other method. Many quacks have announced new cures and have never been heard of since. Early surgery alone prevails."

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Exterminator.

Fine Desert Police Work

Mesopotamia Camel Corps Capture Robbers and Recover Stolen Property

Fine desert police work is reported from Baghdad, Mesopotamia. Robbers recently attacked a Baghdad-Beyrut motor car convoy and killed the wife of the French vice-consul at Baghdad.

The Mesopotamia Camel Corps, formed originally by the British police, chased the robbers for days in the desert, and ultimately captured 20. The assailants made a full confession. The stolen property was recovered, and the prisoners were brought into Baghdad. The capture is considered excellent work on the part of the police and Camel Corps, as the robbers were arrested in the middle of the desert, 200 miles from the scene of the attack.

Pilgrim Bell Again Heard

The large pilgrim bell of the Basilica of St. Anne de Beaupre, which fell from its belfry in the fire of 1921, and was damaged, was heard May 2 for the first time since it was mended. The bell was recently returned from Belgium, where it was repaired.

Annual Egg Production

It is estimated that the production of farm eggs in Canada for 1924 was 212,648,085 dozen of the value of \$50,322,439, as compared with 202,186,508 dozen of the value of \$48,770,780 in 1923.

Rule G, the railroad regulation prohibiting the use of intoxicants by employees, has been amplified by the New York, New Hampshire and Hudson Railway to include narcotics.

Proved safe by millions and prescribed by physicians for

Headache Neuralgia Colds Lumbago
Pain Toothache Neuritis Rheumatism

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Another Triumph For Prince

Has Tightened Empire Bonds By Gaining Good Will of Dutch

The unexpected warmth and enthusiasm with which the Prince of Wales has been greeted in the Dutch strongholds of South Africa as well as in the British centres is delighting both political and social circles at home.

Unquestionably the Prince has scored the greatest personal triumph of his triumphant career as Imperial ambassador. The timeliness of his visit, the skill of his personal diplomacy and the charm of his manner, have combined to make this trip one of the happiest moves in many years for the strengthening of the bonds of the empire. Official circles in London do not attempt to conceal their satisfaction and credit the recent decision of the South African Government to give Great Britain most favored nation treatment of the new tariff schemes to the better atmosphere produced by the presence of the Prince. There is not a dissenting note in the reports from South Africa, both press and official, with regard to the outstanding success of the tour.

Starts Trip Around World Without Money

Man, 35, Hopes Book Describing Travels Will Pay For Law Course

"King" Cole (named Samuel H. Cole when he came into the world at Hagerstown, Md., thirty-five years ago) recently started a penniless journey around the world, his goal being a Cornell University law degree at the age of 42.

Starting life as a newsboy, he became popularly known as "king of the American newsboys," and still returns sporadically to the profession of his youth. Since then, however, he has seen many of the sights and conversed with many of the famous men of the world. Just now his ambition is a law course as a special student in Cornell University. Hence the globe circling journey without cash, which is to furnish material for a book, to be dedicated to Cornell, and which he expects to furnish the wherewithal for his law education.

Guards Radium Carefully

No Chance For Theft From Prague Radiological Institute

Great ingenuity has been displayed by the Prague Radiological Institute in protecting the radium in its possession, and the methods are regarded as so complete that the kindly old professor responsible for the safety of the treasure has no fear of burglars.

The priceless substance, first of all, is stored in tiny stoppered phials, and these in a larger glass container completely sealed by fusing the orifice. Next comes a thick-sided lead box, which is carefully locked up in a modern indestructible safe. All around the safe, a few inches apart, hang loose chains, making it impossible for anyone even to approach the safe without moving them. The slightest movement of a chain rings an alarm bell in the watchman's quarters.

Worms are encouraged by morbid conditions of the stomach and bowels, and so subside. Miller's Worm Powders will alter these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

Unusually Polite

"Although he overcharged me, the cab driver who took me over Paris was most polite," said our friend, who had been holidaying abroad.

"All Frenchmen are," we observed. "Yes; but this one got off his box and helped me to find the necessary words in my French-English dictionary, so that I might say what I thought of him."—Vancouver Province.

Keep Minard's Liniment in the House

Radio Almost Wrecked Home

Powerful Amplifiers Cause Ceiling to Fall and Walls to Split

Static crashing and roaring through a loud speaker nearly wrecked the home of Dr. J. B. Lawrence, one of the pioneers in radio experimentation in the United States.

When the concert started the music was hardly audible on account of static, so Dr. Lawrence connected several powerful amplifiers to the receiver, and the music rolled in with the volume of a pipe organ.

Pictures trembled on the wall, Dr. Lawrence said. Then there was an exceptionally loud crash of static. The room trembled. A warning crack and the walls of the room split open. A moment later the ceiling fell, raining a shower of plaster and lathing on the group.

Fearing an earthquake, the group rushed to the yard. From within came the stentorian voice of the announcer:

"This is station — Chicago," and with another crash of static more plaster fell.

Dr. Lawrence hastily disconnected the too-powerful instrument. Contractors estimated that \$1,000 damage had been done.

Young Mother Regains Health

And Now Recommends Dodd's Kidney Pills to all Similar Sufferers

Mrs. Wm. Maddix suffered from a weak back. St. Gilbert, P.E.I.—(Special)—"I am the mother of three children and after the birth of the eldest my back was very weak," states Mrs. Maddix, a well known resident of this place. "Later it became very painful, until last winter it got so bad that I could hardly stand. I then took four boxes of Dodd's Kidney Pills which completely relieved me. I have great confidence in them and recommend them to all my friends."

Mrs. Maddix's trouble came from the kidneys as is evidenced by the relief she got from Dodd's Kidney Pills. When the kidneys become clogged or out of order, the circulation becomes sluggish, the impurities are not strained out of the blood and the result is weakness and lack of energy all over the body. This condition is not only disagreeable but dangerous as well. The impurities in the blood are the seeds of disease.

Mayo Calls Gland Treatment Humbug

Transplantation of monkey and other glands in the human body was disclaimed of any value by Dr. William J. Mayo, of Rochester, Minn., in addressing the congress of American Physicians and Surgeons at Washington. The public had been "humbugged" with impossible claims, he said.

Because homes in Hungary contain little, if any, wood, the danger from crossed electric wires is so small that insurance companies do not inspect wiring.

GLEICHEN, ALBERTA, WEDNESDAY

MAKING A GOOD TOWN BETTER

In the brief space allotted to this article, the subject of banking facilities can hardly be given justice. The prosperity of a community is largely dependent upon its banking facilities and credits. The bank of today is looked upon as something more than a business. It is an institution, and a necessary one. A later article will cover thrift, credits and savings; but let us see what the bank really means to all of us.

The average banker, especially in the smaller towns and cities, should be more than "business man". Much depends upon him and his force of character, his show of goodwill, and his genuine interest in the community's welfare. He is at once the counsellor and adviser in enterprises all the way from those of high business ventures down to delicate problems of personal or domestic nature. The banker is as much interested in whether you have a good heart, or your business is making money or getting in shape to do so. A prominent banker recently told us that he was even looked upon sometimes as a spiritual adviser for some of his patron-friends and clients.

Good towns have good banks, and good banks make good towns. The Dominion laws, with their very rigid examinations, directors' liabilities, and the like, render the modern bank next to "fool proof". Banks are practically safe now-a-days, and only an extraordinary set of conditions could render them otherwise. So far as the question of safety goes, it may be eliminate from the subject; for nothing is absolutely safe, not even a government bond or the title to your own homestead.

In these days when moral risks are so highly desired aside from (and often place of) financial risks, the community's banks are fostering good citizenship. They are making possible the expansion of business and agriculture through loans, and the general growth and prosperity of the community by financing legitimate industries.

Banks denote a stability. Do not despair if you can not get all the money you want when you want it. Know that if it is difficult for you to get a loan, it is impossible for the unscrupulous. Thus the banker—a good banker—conserves the community's money-resources, within the influence of his institution.

IMPORTANT BUSINESS

When you receive notice of a meeting pertaining to the welfare of Gleichen stating the importance of your attendance, do you lightly pass it up as common, or do you take the word "important" as having significance?

Every meeting called in the interest of community welfare is important. Every ounce of energy put forth to build up Gleichen is worth its weight in gold and re-sults in promoting happiness and contented citizenship for someone. And every straw thrown in the path of Gleichen's progress retards its development, and takes the bread and butter, the wellbeing and happiness away from somebody.

The phrase "come, important business" has gotten to be an old chesnut; but the reason it is an old chesnut with many of us is because we do not see to it that the matter in hand is made important by our attendance, our interest and participation in the affairs of the community.

A democratic government depends upon the people for its perpetuation and support. You hold your share of sovereignty within your own palm. As a dependent being in this world of affairs you are not unlike your fellow citizens and they are not unlike you. You are just as important to the welfare of a town as you make yourself. The multiplication of the "you's" and "me's" is Gleichen; and if anything is wrong with the town is because of the omissions and commissions of these "you's" and "me's". Rather important business, is it not?

WAKE UP !!

Most people resist waking up. They yawn, turn over cover up, and try to stay asleep. No matter what the hour they are not quite ready to wake up. They look daggers at the alarm clock, and curse the sun for shining in through the window, and yet waking up is a precious experience. There's nothing else like it. To come out of darkness into light, out of dormancy into consciousness, out of inertia into activity.

Everybody should look forward to waking up—not only out of sleep, but out of ignorance, bad habits, laziness, sordidness, and many other things. Such a-wakening can take place all day long—every day.

Don't resist it with a yawn, don't turn away from it, and don't try to cover up. Be ready for it. Be willing to learn to be active, to go ahead, and to be a credit to those who care for you.

Advice to pedestrians: in crossing a street don't try to stand on your rights; run, and have some left.

RED ROSE COFFEE "is good coffee"

The Richer Life Of The West

The people of the prairie provinces of Canada are engaged in the very large task of converting an empire of vacant or still sparsely settled territory into a thriving nation, and in doing so are seeking to lay foundations firm and true upon which the great structure of the future shall be erected. While much has been accomplished, the days of the pioneers are by no means past, and tasks enormous in their magnitude yet call for the initiative and energies of Western people.

It is both natural and inevitable that during these years of pioneer settlement and development the thought and activities of the people should be directed to those material and physical things necessary to the opening of the country and providing for its financial success and prosperity. Problems of transportation by rail and ocean, the construction of roads and bridges, development of markets and access to them for Western products, questions of credits and adequate banking facilities, mortgage loans and rates of interest, and all the other economic problems therefore loom large at present throughout the West, and the very fact that they call for so much consideration, agitation and legislation, has a tendency to create in the minds of people elsewhere a false idea that the people of the West are wholly material, even mercenary in their outlook, giving little thought to or having little regard for what are generally termed the finer and better things in life.

The surprising thing about Canada's prairie provinces is not that so much attention is necessarily devoted to the material development and well-being of the country, but that such a large amount of time, earnest thought and hard earned money is so freely given by Western people in these early days of their country's history to what are termed the finer arts, and to the development of a strong, intelligent and cultivated citizenship. It is one thing for old established, well settled and wealthy countries to erect and maintain great universities, museums of art, conservatories of music, symphony orchestras, etc., etc., but quite another thing for sparsely settled pioneer communities to do so.

Nevertheless on these prairie provinces greater attention is being paid to the provision of higher institutions of learning than in many old and wealthy countries, and even in these still pioneer days the work of collecting art treasures, establishing museums, and cultivating a popular taste for the best in literature and music is receiving increasing attention and support.

None of the older Canadian provinces are putting forth anything like the same effort in the encouragement of good music among the masses of the population as is carried on year after year in these prairie provinces through the instrumentality of the annual musical festivals. In the older provinces and in the states to the south, good music is, as a rule, provided through the benefactions of a few wealthy patrons. Here in the West, where people of great wealth are few and far between, these "finer" things can only be made possible through the self-denying service of the people themselves, maintained by the small contributions of all.

These annual musical festivals, which are increasing in popularity and attaining a higher standard of excellence year after year, are but the culmination of faithful, painstaking work on the part of scores of small musical organizations scattered throughout the cities, towns, villages and rural districts of the Canadian West, and all of which are constantly bringing real pleasure and profit to their respective communities. And what is being accomplished in the development of a popular taste for good music is to an increasing degree also being accomplished in the realms of literature and art.

The people of the West are not mere money grubbers. They are striving hard to attain to material prosperity, it is true, and they are insistent in their demands that those material things essential to the attainment of that object shall be provided. But such material prosperity is regarded by the vast majority of Western people merely as a means to an end, that end being the enrichment of the whole life of the people and the upbuilding of as fine a country and race of people as are to be found in the world. The fact that so much is now being done to achieve that result when the means for its accomplishment are so limited, speaks volumes for the ideals and aspirations of Western Canadians, and holds promise of a rich and wonderful future.

Should Be Thankful

"Mr. Chairman," complained the speaker, stopping in his address, "I have been on my feet nearly ten minutes, but there is so much ribaldry and interruption, I can hardly hear myself speak."

"Cheer up, guy, no," came a voice from the rear, "you ain't missin' much."—Capper's Weekly.

Silos In The West

Great improvement has been made in the matter of winter feed for dairy cows in Alberta during the past year, according to the annual report of the department of agriculture. There are between 2,500 and 3,000 silos now in the province, most of which have been erected within the past five years.

When a man is sure that his friends never say unkind things to him he is sure that all his friends are dead.

The young man who writes the best love letters doesn't necessarily make the best husband.

Indicates Recovery

Not many persons know what it means for a nation to restore the gold standard, but every person is convinced that any nation which is strong enough to do it has got its finances fairly well in shape and has made some financial progress.—Calgary Alberta.

What Kind of Bait?

Young Lady (on first visit to western ranch): "For what purpose do you use that coil of rope on your saddle?" Cowboy: "That rope, as you call it, lady, we use for catching cattle and horses."

"Oh, indeed? Now, may I ask what you use for bait?"

Dr. D. B. Neely Dead

Dr. David Bradley Neely, one-time member of the Saskatchewan Legislature and of the Dominion Parliament for Humboldt, Sask., who left Toronto about ten years ago, died recently at St. Petersburg, Florida, after a brief illness.

"Play Streets"

Where Automobiles Are Banned and Children Can Ramp Without Fear of Death

In some cities of the United States the problem of safeguarding the lives of children has been solved by the designation of certain streets as "play streets." During certain hours of the day automobiles are denied access to these designated zones. The plan, it is said, has proved to be popular with the kiddies, their parents and the motorists themselves.—Hamilton Spectator.

For Aches, Pains, The Safe Home Remedy NERVILINE

When sudden sickness comes, when the kiddies come in with colds, their little chests and throats sore from coughing, quick results always follow a vigorous rubbing with good old NERVILINE. If it's Croup, Colds, Diphtheria, NERVILINE is a wonderful friend; it brings ease and comfort so quickly. For young and old, to overcome the minor ills that constantly arise in the home, nothing compares with "Nerviline."—35 cents at all dealers.

Believe In Divining Rod

People In Czechoslovakia Have Had Satisfactory Demonstration

The people of Proedlitz, Czechoslovakia, no longer doubt the efficacy of the divining rod as a means of locating water under the surface of the earth. They have had a demonstration, they aver, which is conclusive.

Badly in need of a water supply three years ago the town employed Heinrich Otto, a local expert with the divining rod, to locate a well. He did so, but a shaft 90 feet deep gave nothing but dry soil, and the project was abandoned. The town managed to get along until this winter, when existing supplies became so scant that Heinrich, again was called in. He walked about with his divining rod, and as he passed over the old well, the story goes, the hazel switch was actually pulled out of his hands. Town workmen went to the bottom of the old shaft, dug down six feet more, and found an abundant supply.

NEW STRENGTH FOR WEAK GIRLS

Can Be Had Through the Rich, Red Blood Made By Dr. Williams' Pink Pills

There comes a time in the life of almost every girl when weakness attacks her. The strain upon her blood supply is too great, and there comes a time when the blood is so poor that it is unable to supply the body with the necessary food and oxygen. The result is a constant weariness and a tendency to a decline. All these symptoms may not be present in any particular case, but the presence of any one of them shows the necessity for prompt treatment. And the very best treatment is through the blood-making tonic qualities of Dr. Williams' Pink Pills. They are the one thing needed to maintain the health of growing girls and women of mature years.

Here is a bit of strong proof: Miss Matilda Breen, King Highway, Newcastle, N.B., says: "I was in an extremely run-down and nervous condition. I was losing flesh, had a poor appetite, always pale, and suffered frequently from headaches. In fact my condition could best be described as miserable. I had tried several treatments but they did not help me in the least. Then, reading one day about Dr. Williams' Pink Pills, I decided to try them. After using three boxes I was much improved, but continued until I had taken six boxes, with the result that I am now well and strong, with good color and a hearty appetite. In view of what Dr. Williams' Pink Pills have done for me I cannot recommend them too highly."

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

For Increased Pensions

Commons Passes a Resolution Amending the Pensions Act

A resolution to provide for amendments to the Pensions Act was introduced in the house by Hon. H. S. Beaud, minister of soldiers' civil re-establishment. Among the amendments contemplated are provisions for a definite pension, irreducible for two years in cases of pulmonary tuberculosis; for increased pensions to mothers whose husbands are physically helpless, or in a dependent condition; and for conditions under which pension may be continued to dependent parents.

The resolution was carried without further discussion, and a bill based on it was given first reading.

London school children took out more than 2,500,000 books from the city libraries last year, as compared with 714,000 twenty years ago.

The Red Peril

British Challenge to the Undermining Doctrine of Communism

Moscow is directing a world-wide plot to enforce Communism in every country, by violence if necessary, and the British Government is prepared to fight the Red menace with every weapon, Sir William Jernison-Hicks, home secretary, declared in a special statement to the London Sunday Times.

"I am satisfied of the existence in Europe of a definite effort to enforce Communist ideas and propaganda in every country, even by riot if necessary," said Sir William. "I might have said by revolution, but that is too strong a word for the moment, yet ultimately that is precisely what the Bolsheviks intend."

"It is clearly the aim of the Communists in this country to subvert the existing order of things. This definite object on the part of the political party, however, shall carefully be considered by the government and myself."

"Almost daily I receive and consider reports of the Communist activities here. I feel if more people read Bolshevik literature they would be more alive to the real aim of these people. The government is fully cognizant of the present state of affairs, and will take the steps necessary for protection."

This statement from a responsible cabinet minister is regarded as an official confirmation of the Red peril and the British challenge to it.

Straw-Packed Wares Must Be Fumigated

Exporter Must Pay Cost On Goods Not Certified

Release of all goods packed in straw entering the port of Vancouver, although not certified in compliance with the foot and mouth disease regulations, has been secured by Hon. Dr. J. H. King, minister of public works. The department of agriculture will suspend its order-in-council if the importer will pay the cost of fumigating at the fumigating station, the dispatch states. It is assumed, therefore, that Vancouver will be provided shortly with a fumigating station under the supervision of federal authorities through which straw-packed wares not properly certified under the terms of the straw and fodder packing regulations will be passed after fumigation of the goods and burning of the straw.

Belgians Want B.C. Zinc

Faced With Shortage Since Australian Supply Cut Off

J. Nivette, mining engineer for the Vieille-Montagne Zinc Co., of Belgium, is in Vancouver with word that his company is prepared to take an unlimited quantity of zinc concentrates from this province and to finance or operate zinc property in British Columbia.

Mr. Nivette states that a great source of supply in Australia, from which the concentrates for 30 years was secured, have been lost to Belgium, and that, faced with a growing world demand for the metal, his company is prepared to spend a large amount of money in British Columbia to create her a new supply for its European smelters.

Coal Resources Of West

62 Billion Tons of Coal Lie Under the Soil of Alberta

Sixty-two billion tons of coal, half of this amount recoverable, lie beneath the surface of Alberta soil, according to Prof. J. A. Allan, provincial geologist, and head of the department of geology of the University of Alberta, in a statement made before the Alberta coal commission. The commission was also told that \$12,000,000 had been lost by the abandonment of coal mines during the past 20 years. This loss is ascribed to loss of markets.

The light in Bishop's lighthouse, off the southwest coast of England, weighs several tons, but can be revolved by a child because it rests in a circular trough of mercury.

The air is so clear in Zulu land that objects of fair size can be distinguished at a distance of seven or eight miles by starlight.

One song sung amid a storm is of more benefit to mankind than a whole concert when the sun is shining.

To Control Trade In Arms

Ethiopia Registers Objection to Any Restriction Being Placed

Any attempt at the coming international conference on the control of the trade in arms and munitions to define extensive zones where the importation of arms is prohibited or greatly restricted, promises to bring a clash with Ethiopia. This country has sent a strong note to the League of Nations upholding her need of arms to protect herself and maintain order and in any case the Ethiopian Government demands the right to air its views before the league council.

Alberta Tar Sands

Company Making Preparations to Start Development Operations

Officials of the Anglo-Canadian Collieries and Refineries, Ltd., a company that was formed some time ago with the object of developing the Northern Alberta tar sands on a commercial scale, state that they are making preparations to start operations this spring. The company is backed by local capital and has acquired the Canadian rights for a German process of extracting the bitumen from the sand.

HEART WAS WEAK NERVES ALL GONE

Mrs. J. H. Hallenbeck, 117½ Welland Avenue, St. Catharines, Ont., writes:—"I was in a gas explosion; it left me with a weak heart, and my nerves were all gone. I suffered everything; couldn't sleep, or endure any excitement, and when left alone I felt as if I could scream. I took dizzy spells, often falling and bruising myself. My mother read about your Milburn's Heart and Nerve Pills, and bought me a box, but having taken so many different kinds of medicine it just seemed that I did not have any confidence in any of them. I took one box of H. & N. Pills, and felt so much better I continued with them until I had used five boxes, and after I had taken them I did not need any more. I cannot praise, or recommend, Milburn's Heart and Nerve Pills too highly after all they have done for me."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Ignorance and Communism

School Laws of This Country Must Be Obeyed by All Classes

The British Columbia Government is not letting up in its campaign with the Doukhobors. This is the land of the free, and no country interferes less with the private life of the people, but there are some things that every Canadian Government must do, and one of these is to enforce the school law. The one reason that the Doukhobors object to obeying that law is because he finds when the child goes to school and learns something, he ceases to become a Communist.—Calgary Alberta.

Japan's Naval Programme

Has in Hand a Formidable Programme of Naval Construction

Japan is the only power engaged in carrying out her programme of naval construction without variation, and apparently also without delay. She has in hand what, in view of the restraint which is being exercised in other countries, can only be regarded as a formidable programme. She possesses already twenty-eight cruisers, and is building eleven more; she also has in hand two aircraft carriers, twenty-three destroyers, twenty-eight submarines and three mine-sweepers.—London Daily Telegraph.

Extend Auto Permits

Support of all the automobile clubs throughout Canada will be solicited by the Automobile Club of British Columbia in an endeavor to obtain from the customs department an extension of the thirty-day automobile tourist permits, according to an announcement by F. J. Elkins, the club manager.

An Oil that is Famous.—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far ahead enough to attest its excellence, for in all these countries it is on sale and in demand.

Romance of Provincial History
The children of British Columbia can never be expected to take maximum interest in the development of this province until their imaginations are fired by the romance of the province's history.—Vancouver Sun.

Juvenile Migration

London Saturday Review Deals With This Important Question

The London Saturday Review, dealing with the subject of child immigration in Canada, says the annual reports of the chief inspector of British immigrants receiving homes show but little initiative and they carefully avoid criticism of the methods followed in connection with child immigration.

"Juvenile migration towards Canada," the Review says, "has too long remained only an adjunct to the work of reclamation of child life in the English and Scottish congested areas. These limitations should be removed and a state-aided and state-controlled system inaugurated that would be available for boys and girls of all classes."

Valuable Emerald Sold Cheap

Supposed To Be Imitation But Found To Be Genuine

Two shillings for an emerald was paid by a man who visited a cheap jewellery store. The stone which was believed to be an imitation turned out to be a genuine gem and sold for £1,450. A dealer in cheap jewellery in one of the meaner streets of Rotherham, learnt that a man in Sheffield had a quantity of imitation stones to sell. The goods included a supposed replica of an emerald ring, which was retailed for two shillings. Later the purchaser had it valued, and it was found that the jewel was one of six carats, set in gold. Efforts to trace the man who sold the ring have proved unsuccessful, and the earlier history of the jewel, which measures half an inch across, is unknown.

He Would Not Be Without Them

Quebec Man Absolutely Relieved Of Backache

Mr. Alfred Gagnon Recommends Dodd's Kidney Pills to All Who Suffer.

Moulins Betsimis, Que.—(Special).—"A few words about your Dodd's Kidney Pills. They have done me much good," states Mr. Gagnon, a well known and highly respected resident of this place.

"For pains in the back and kidneys, I have taken Dodd's Kidney Pills and they have done me good immediately. I always keep a box in the house. Today, thanks to your pills I am quite relieved of my trouble and recommend them to all who suffer. Kindly send me one of your albums."

Dodd's Kidney Pills are purely and simply a kidney remedy. They act directly on the kidneys, strengthening them and putting them in condition to do their full work of straining the impurities out of the blood. Dodd's Kidney Pills have been in use in Canada for more than thirty years. They demonstrated their worth in the most serious forms of kidney disease, such as rheumatism, dropsy, diabetes, neuralgia and sciatica.

New Scholarship Given

Donated by the International Federation of the Students of the League of Nations, a new scholarship is being offered students at the University of Saskatchewan, according to an announcement by Prof. Frank Underwood, of the history department at the varsity. This means that some student will leave early next fall to attend the sessions of the council of the League of Nations at Geneva.

Easterner Builds Fine Yacht

What will be the finest and most costly private ocean-going yacht built in Eastern Canada by order of Commander J. K. L. Ross, is now nearing completion at Orillia. Her cost is placed at \$110,000. The "Gannet," as she is to be named, will be electrically lighted and heated, will have a speed of about twelve knots, carry a crew of six and have sleeping accommodation for twelve.

The fair sex is decidedly in the majority in Vicuna, according to a census taken by the city authorities on January 1, 1925. The figures are 1,006,290 women and 862,938 men.

And maybe the early bird doesn't enjoy the worm as much as the late bird enjoys the sleep.

E. F. Harrison, inventor of the gas mask, entered the French army as a private.

Minard's Liniment for Cuts and Bruises

More Research Work In Saskatchewan

Hope to Discover Valuable Exhibits For Royal Museum

Prof. Alex. McLean, University of Toronto, will superintend further excavations in Northern Saskatchewan, where last year, Prof. W. A. Sparks, associated with the Royal Ontario Museum, found the bones of dinosaurs. Several other men will be sent by the university which is directing the research work, to assist Prof. MacLean, who will be located at Dundurn. It is anticipated that valuable specimens, to be added to the exhibits of the Royal Museum, will be discovered this spring, Prof. Sparks stated.

His position as president of the Geological Society of the British Association, he said, would necessitate a visit to Europe and interfere with his scientific research in the western province this year.

Requisite on the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

Would Provide New Industry

Alberta Seeks to Have Straw Paper Manufacture

Efforts which have extended over the past three years to demonstrate the practicability of Alberta straw for the manufacture of papers of different kinds, are nearing complete success, according to Trade Commissioner Howard Stutchbury. Arrangements are now being made to have an expert and paper engineer visit the province in the near future and make an examination of the local conditions.

It is estimated that a plant turning out the coarser products to the amount of twenty-five tons a day will cost in the vicinity of \$200,000, and it is hoped to interest capital in this project during the coming summer.

Ship Live Poultry To Holland

Large shipments of white Wyandottes from the farm of Hon. John Martin, Ontario minister of agriculture, have gone forward to Holland. One of the lot of 50 birds is consigned to the Dutch Government. The whole shipment is said to be the largest lot of pure-bred poultry ever shipped from Canada.

Praises this Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight, and it can be purchased almost everywhere.

Trans-Canada Highway

Virtual completion of the trans-Canada highway through Manitoba by October 1 is the aim of the good roads department of the Provincial Government. The work, when finished, will complete the road from Brandon west to the Saskatchewan boundary.

You can't always judge things by their looks. Shaving lather looks just as good to eat as whipped cream.

Widows of former U.S. presidents get a pension of \$5,000 a year and a franking privilege.

WORLD HAPPENINGS BRIEFLY TOLD

Two hundred cases of leprosy have been discovered among street peddlers at Rostov, Russia. The medical authorities are isolating the victims.

A rumor that Finance Minister Callaghan and the Bank of France authorities were discussing further inflation of the currency was denied by the ministry of finance.

The Japanese Government has contributed about \$11,000 to aid in the proposed aeroplane flight to Europe this summer, which will be directed by the Asahi Shimbun, a newspaper.

Fifty-four surviving members of the original 299 in the Brigade of Montreal Garrison Artillery who left Montreal 40 years ago to join the North-west Field Force in the quelling of the Riel Rebellion, held a re-union.

A resolution urging the government to bring down legislation at the present session of parliament for the establishment of an adequate rural credit system, was passed by the banking and commerce committee.

The first consignment of mail from England to San Francisco by a partial air route, left Southampton aboard the steamship Aquitania, to be taken from New York to San Francisco by aeroplane.

Taking action on a largely signed petition of storekeepers, the Vancouver city council rescinded the Early Closing Bylaw and groceries may now be purchased in Vancouver at any hour of the day or night.

The Prince of Wales, it is officially announced, has definitely accepted the invitation to visit Chile upon the termination of his visit to Argentina. It is expected the Prince will arrive in Chile about August 29 by special from Buenos Aires.

Capt. Donald B. MacMillan has purchased for his forthcoming Arctic expedition the steam yacht Rowena, owned by Morill Goddard, New York editor and yachtman. Capt. G. F. Steele, of Roxbury, will command the Rowena on the voyage to northern waters.

Museum Opened At Munich

Said To Be Largest Of Its Kind In The World

Munich was on fête May 5 with her streets gaily bedecked and thronged with visitors from all parts of the country to witness the official opening of the Deutsche museum, construction of which was begun before the war. The museum building is said to be the largest of its kind in the world. Several members of the cabinet attended the ceremony, Chancellor Luther coming from Berlin by aeroplane.

Watch Your Daughter

—Wolfe's Photo-Studio

Chatham, Ont.—"I gave Dr. Pierce's Favorite Prescription to my daughter and it did her a world of good. She had always been delicate, had functional disturbances and was very nervous and weak. She also had a lot of trouble with her stomach. But after I began giving her the 'Favorite Prescription' she did not suffer, her nerves were good, she began to get stronger and finally developed into a healthy, robust girl. And what 'Favorite Prescription' did for my daughter, it will do for other girls if they will only try it."—Mrs. Fred Crounham, 30 Adelaide St. N. All dealers.

This Prescription is made in Dr. Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there if you wish a trial package of the tablets.

Famine In China

Cannibalism Said to Have Become Common As a Result

Millions of Chinese are starving in the province of Kweichow in the southwest part of China, according to a dispatch to the London Daily Express. Cannibalism is said to have become common in the villages as the plagued natives struggle to live.

The famine area embraces sixty districts and throughout the territory Chinese are dying by the hundreds from lack of food. The roads are littered with dead, while hungry families creep forward toward the towns where many of them die on the doorsteps as they beg for food which is not to be had. The hoard from last year's harvest was exhausted long ago and the people have stripped the leaves from trees and now are living on grass or human flesh.

Portions of the countryside have been depopulated by the migration of the natives in search of food. The situation is likely to become worse as large scale relief is impossible until the rice crop is harvested, despite the efforts of missionaries who are doing their utmost to feed the hungry mouths. The provincial treasury is empty and without adequate funds, and but slight progress can be made against the pressure of such wholesale disaster.

Motor Cars In Canada

Increase in 1924 Over Previous Year Of 58,798 Passenger Cars

According to a report recently issued by the Dominion bureau of statistics the total number of motor vehicles registered in Canada at the end of 1924 was 652,121, an increase over the year 1923 of 58,798 in passenger cars and 1,316 in motor trucks.

Ontario leads in the number of motor vehicles with 268,632; Quebec is next with 85,145; then Saskatchewan with 79,751; followed by Alberta with 51,148; British Columbia, 48,626; Manitoba, 41,322; Nova Scotia, 29,764; New Brunswick, 19,975; Prince Edward Island, 2,583; and the Yukon Territory, 111.

The report states that in 1924, 1,534,885 tourist automobiles entered Canada for a period not exceeding 24 hours compared with 966,499 in the previous year; 261,839 tourists' cars were admitted for a stay of one month or against 273,441 in 1923 and 2,344 came for over one month and under six months, more than in 1923. The grand total of tourist cars, therefore, that entered the Dominion last year was 1,899,059 compared with 1,241,897 in 1923, an increase in 1924 of 657,162.

Rome Celebrates Founding

Important Ceremonies Marked 2,078 Birthday of Eternal City

The Eternal City, on April 20, celebrated with characteristic Italian gaiety the legendary founding of the city 2,078 years ago. All Rome was bedecked with flags. The royal palaces were hung with heraldic bunting. All business houses were closed and work of every kind was suspended by municipal ordinance. The most important of the ceremonies was the inauguration, in the presence of King Victor Emmanuel, of the newly excavated forum of Augustus. It was announced that the government has ceded to the municipality large tracts of territory in Rome's suburbs, areas rich in archaeological treasures, where researchers said to be the most ambitious ever attempted there will be undertaken.

Queen Victoria's Last Escape

Miss Elizabeth Underwood Lisle, of George Street, Portman Square, who has just celebrated her 104th birthday, was a well-known figure in society in early Victorian days. She was presented at court more than 80 years ago, and tells of Princess, afterwards Queen Victoria, sliding down a staircase on a tea tray as a last escape before her coronation.

Italy Plans Flying Force

Italy will possess 2,070 land and sea battle planes under the aeronautical re-organization bill approved by the cabinet. Sixty squadrons of the air fleet will be attached to the army; 18 to the navy and 12 will be detailed to the Italian colonies. Nearly 30,000 officers and men will man the fleet, and in charge of them will be 26 generals.

Vancouver As An Important Port

Vancouver is now the second port on the Pacific coast in deep-sea net tonnage handled and fourth in total net tonnage, according to figures compiled on port tonnages during 1924 by the Vancouver Merchants' Exchange.

One-third of Scotland has changed hands through the real estate market during the past six years.

A man never lowers himself by attempting to hit others up.

Death of Veteran Statesman

Right Hon. W. F. Massey, Premier of New Zealand, whose death occurred recently.

No Cheer For the Reds

Moscow Sees No Encouragement In Election of Von Hindenburg

Upon taking second thought, much of Europe seems to be arriving at the conclusion that there is less reason to be seriously apprehensive because of the election of von Hindenburg than at first appeared. There is a growing recollection that, after all, the president of the German republic is not the person who decides its policies, and that the cabinet and the Reichstag really run the country. Besides this, the moderate tone of Hindenburg's utterances up to this time and the intimation that he stands by the Dawes plan has had a rather reassuring effect on many who at first assumed that the outcome of the national election meant the inauguration of an era of reaction and militarism. A tendency to suspend judgment, hope for the best and await the outcome is distinctly on the increase. Moscow alone is unable to see anything but blackness in the prospect. It is quite sure, and justifiably so, that the election of Hindenburg contains no gleam of cheer for the bolsheviks.—Detroit Free Press.

MOTHERS PRAISE BABY'S OWN TABLETS

Mrs. L. M. Brown, Walton, N.S., says:—"I cannot recommend Baby's Own Tablets too highly. I have found them invaluable for the ailments of little ones." Mrs. Brown's testimony is the same as that of thousands of other mothers who have used the Tablets. To use them once is a sure guarantee that they will always be kept in the home as long as there are babies or young children to be cared for. The Tablets are a laxative—mild but thorough in action—which never fail to regulate the stomach and bowels; relieve constipation and indigestion; break up colds and simple fevers and make the dreaded teething period easy. In fact they banish all the minor ills from which little ones suffer. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

France Building Fast Plane

Expect Machine to Make Non-Stop Trip to New York

There is being built secretly in Paris a large hydroplane with which it is hoped to fly, without stopping, the 5,099 miles between Paris and New York.

This machine is being constructed on the orders of the French navy, and according to its own plans. It will have a motor of 550 horsepower, and will carry 6000 litres of gasoline. The first trials will take place in June, and a flight will be attempted during the summer.

French aviation headquarters admit the machine is being made, but refuse to reveal any details beyond those given above.

Woman Scientist Honored

Elected Member of U.S. National Academy of Science

For the first time in its history the National Academy of Sciences, the leading scientific body of the United States, elected a woman to its membership. She is Dr. Florence Rena Sabin, anatomist and professor of histology at the Johns Hopkins Medical School, Baltimore.

Blood is the subject of Miss Sabin's researches that have brought her this high honor. Instead of studying cells of the blood after they have been killed, she has succeeded in keeping blood alive outside the body for three to four hours and determining its reactions in this way.

A portable piano but three feet long and 7½-inches wide is manufactured in England.

More men than women are color blind.

Canada Leads the Way

Is Opening Doors of Britain For Import of All Cattle

Canada, having gained in 1922 an entry into the United Kingdom for her store cattle, has been insistent for the wider opening of the door to include pedigree stock. It can scarcely be imagined that the old-established herds of Scotland and England will draw an infusion of blood from the folds or the herds of younger Canada; what is more apparent in the insistence of the western dominion is to drive the thin edge of the wedge for a wide open door at all the ports of Britain for the landing of all classes of cattle—store, fat and pedigree. Pressure in that direction is not without its bearing on the cattle future of South Africa or Rhodesia. It would mean that when the day arrives for the export of store cattle from these shores they would, if accompanied by the necessary evidence of clean health, have admittance to the live cattle markets of Britain.—Buluwayo Chronicle.

Painful Sprains, Bruises, Restored By Nerviline

There is soothing power in Nerviline that has made it famous for nearly fifty years past. It strikes it deeply, it penetrates quickly. It takes away the pain from a sprain and brings grateful relief to bruised, aching muscles. If your joints are stiff and you are suffering from Rheumatism or Lumbago; if Neuralgia bothers you now and again, use trusty old "Nerviline." It works wonders, whether the pain is internal or external. Get a large 35-cent bottle from your dealer today.

Girl's Suspender Skirt and Peasant Blouse

The new jumper or suspender skirt is one of the most youthful and practical fashions of the present mode. The dress shown here, No. 1054, consists of the suspender skirt and a peasant blouse. The skirt has an inverted plait at either side and diagonally slit pockets. The shoulder straps are cut in one with the skirt, and form deep oval neck opening and large armholes. The blouse has long raglan sleeves gathered into wristbands and the over youthful Peter Pan collar. Flannel is a favorite material for the skirt, and either white or colored voile or printed silk for the blouse. Pattern No. 1054 comes in sizes 8 to 14 years, and requires 2½ yards of 32 or 36-inch material for blouse and 2½ yards for skirt in the 10-year size.

Sugar Beet Acreage

Well over 6,000 acres have been prepared for the growing of sugar beets in the area tributary to the new beet sugar factory which is being erected at Raymond, Alberta. Work is now being started on the factory which will be rushed to completion.

Women now outnumber men on the continent of Europe by 25,000,000, according to the latest statistics.

Cuticura Promotes Permanent Hair Health

Shampoos with Cuticura Soap, with light applications of Cuticura Ointment when necessary, tend to free the scalp of dandruff and minor eruptions, and to establish a permanent condition of hair health.

Sample Each Free by Mail. Address Canadian Depot, "Cuticura Ltd., Montreal." Price, Soap 25c, Ointment 25c and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

Offer Scholarships

Manitoba Department of Education to Aid Boys' and Girls' Clubs of Province

The Manitoba department of education is offering scholarships to members of winning demonstrating teams of Manitoba Boys' and Girls' Clubs, according to announcement made by Hon. C. R. Cannon, minister of education.

Each member of the winning girls' team will be awarded a scholarship, which entitles her to attend a six-week term of the home economics course for high school girls at the Manitoba Agricultural College, during July and August. The scholarship covers tuition, board and rooms for the period. Members of the successful boys' team will receive a scholarship worth \$52. This award may be offered in part payment for any course at the Agricultural College by the winner.

The provincial competition this year will be held during the third week of August. Demonstrations will be given on foods, clothing, health, wine manufacturing, bird life, art, fiber, paint, horticulture and silos.

HER NERVES SO BAD SHE COULD NOT SLEEP

Mrs. Grace Kitchen, St. George, Ont., writes:—"After having a severe attack of pneumonia I was left in a weak and run-down condition. My nerves were so bad I could not sleep nights, and in the day time I had terrible fainting spells, caused by my heart being weak. Finally I got so bad I had to take to my bed for weeks at a time, but one day I read about

MILBURN'S HEART AND NERVE PILLS

so decided to try them.

After taking one box I felt a slight improvement. I have now taken five boxes, and have gained 35 pounds in weight. I am now more than able to do all my own housework as well as considerable outside work. I cannot recommend Milburn's H. & N. Pills too highly for those suffering as I did."

Manitoba Industrial Survey

Proposed Survey of Province May Be Carried On Co-operatively

Tentative plans have been agreed to on co-operation between the Manitoba Government and the Winnipeg committee on the proposed industrial survey of the province. It is understood complete understanding has been reached and a basis of co-operation resolved and that the government will grant \$10,000 to the general fund raised for the survey.

More Life Insurance Written

Ordinary life insurance written in Canada shows a decided increase this year so far, as compared with that of the corresponding period in 1924. The increase in March over February was from \$28,000,000 to over \$35,000,000.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can be taken internally.

It is customary among certain sects of Algiers to bury the dead with the bottles of medicine used during their last illness.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Some poets soar upward after the infinite, while others remain on earth and satisfy their longing for pork and beans.

Minard's Liniment for Corns and Bunions

Campaign To Reduce Crossing Accidents

Railroads In U.S. Prove Good Results Obtained

The railroads of the United States, through the American Railway Association, are planning an intensive campaign, to open June 1 and to continue until about September 30, to reduce the number of grade crossing accidents.

As a result of the campaign conducted last year the railroads reported a reduction in the campaign period of 15 per cent. from the previous year despite an increase of 17 per cent. in the number of motor vehicles in use.

Adulterated Dairy Products

New Dairy Act Will More Clearly Define What Constitutes An Adulterant

Heavier penalties for the sale of adulterated dairy products are provided in a bill introduced in the house by the minister of agriculture, Hon. W. R. Motherwell. The bill was given second reading and referred to the agriculture committee. The minister explained that the dairy industry act did not clearly define what constituted oleomargarine, renovated butter and similar prohibited dairy products. The amending bill would more sharply define what constituted an adulterant.

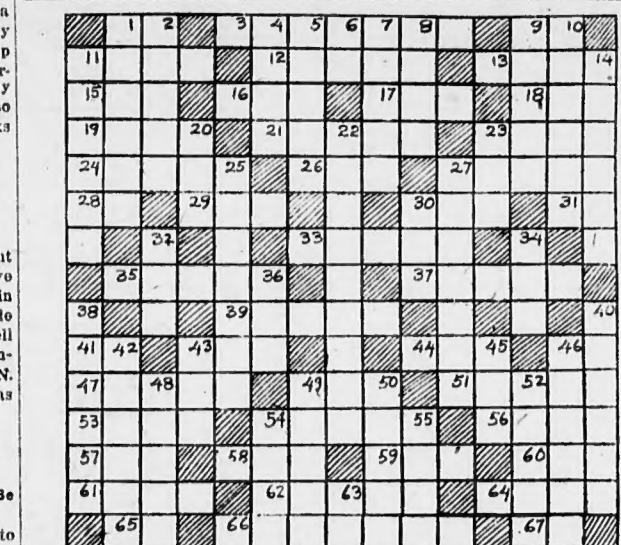

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent incipient condition from becoming chronic and saves hours of awful suffering.

Saskatchewan Income Tax

Saskatchewan pays less income tax than those of the other two prairie provinces. In answer to a question in the House of Commons, it was stated that the total amount collected in federal income tax in the fiscal year just ended, were: Manitoba, \$3,477,069; Saskatchewan, \$872,928; Alberta, \$1,163,911.

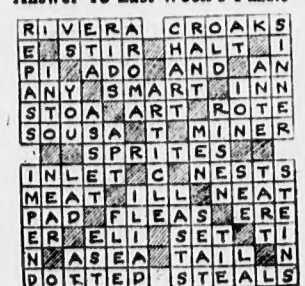

Perfumed butter is served in Paris at the most fashionable restaurants.

June 21—U.F.A. Sunday.

June 30 & July 1—Gleichen Stampede and Carnival.

July 18 to 24—Chautauqua Entertainment at Gleichen.

TOWN AND DISTRICT

The Gleichen Band desires to acknowledge with thanks the sum of \$39.61, which was kindly donated to the Band by the Glee Club.

The management of the Gleichen Community Hall have booked a series of Paramount pictures for Gleichen, which include the very latest productions and will begin about the middle of next month. Watch the Call for announcement of dates and further particulars.

The quarterly convention of the Bow Valley District U.F.A. Association will be held in the Meadowbrook Community Hall on Friday, June 12, commencing at 10 a.m. The Hon. George Hoadley, Minister of Agriculture, will address the convention and an effort is being made to secure another speaker of prominence. A cordial invitation is extended to the general public as well as all U.F.A. members to attend.

SPECIAL ANNOUNCEMENT

The Rev. Mr. Smeeton of Calgary will be in charge of the services in the Union Church on Sunday next. Mr. Bevan will be visiting the Chancellor field in behalf of the Home Mission committee in the interests of that field. It is planned to build a manse and place an ordained man at Chancellor. Services will be held there next Sunday and the matter discussed. It is hoped that there will be a full turn out of the congregation and friends to hear Mr. Smeeton in our own church. There will be a service in the Alton Schoolhouse in the afternoon.

THE UNION CHURCH SERVICES

REV. H. J. BEVEN, Ministr.
Phone 24
